- Goal & Budget Tracking

**EventKey keeps teams aligned and ensures a smooth experience from start to finish.**

# Why EventKey?

## Connected Ecosystem

Unify your platform with real-time, accurate data powered by seamless PMS integration for smoother operations.

## Smart Space & Package Management

Manage spaces, pricing, and event packages with precision and flexibility to optimize efficiency and revenue.

## Visual Space Diagramming

Plan layouts with intuitive diagram tools that help you visualize every detail with precision.

## Groups Integration

Stay fully aligned with group bookings to support smooth planning and accurate inventory management.

## Instant Digital Contracts

Share, sign, and confirm agreements in minutes to elevate speed, convenience, and client satisfaction.

## Automated Deposit Payments

Automate deposit workflows with no manual intervention, ensuring faster processing and fewer errors.

## Goal & Budget Tracking

Maintain full visibility into property goals and user-level budgets with integrated performance tracking to drive smarter decision-making.

## Upcoming Enhancements

### Product Inventory & Management

Centralize all event inventory, from AV to décor, for easier control and more efficient planning.

### Self-Service Training Platform

Enable faster adoption with intuitive, on-demand training that empowers users to learn independently.

### Global Event Technology Integrations

Expand your reach with upcoming integrations for Outlook, Cvent, and MeetingBroker, opening new lead and booking channels.

### Attendee & Registration Management

Streamline guest registration and attendance tracking for smoother event access and a polished attendee experience.

### Self-Service Event Booking

Empower clients to explore, request, and book event spaces on their terms with a seamless self-service experience.
