- Contactless table ordering
- Kitchen and guest display

**Transform your hospitality operations  
with a cloud-native point of sale system.  
Designed by hospitality professionals.  
Built for your success.**

## Why RetailKey?

### 100% Cloud Native

Access your sales data from anywhere, whether you are at home, in transit, or on property. Your data remains secure, synchronized, and always available.

### Global Deployment

AWS-backed infrastructure enables secure, scalable, and global reach, especially when integrated with PMS.

### 24/7/365 Support

Our knowledgeable team is available around the clock to support your operation, no matter the challenge.

### Dedicated Success Manager

When paired with PMS, you receive a dedicated Customer Success Manager focused on ensuring long-term success.

### Purpose-Built

Designed by hospitality professionals who understand the industry from the inside out.

### Easy Integrations

Seamlessly integrate with PMS, CRS, RMS, event management, and more for a unified experience.

## Comprehensive Functionality

Manage inventory, track sales, oversee employees, and access real-time reporting for smarter operations.

## User-Friendly Interface

Navigate workflows with ease, helping new and experienced staff work faster and more confidently.

## Flexible and Scalable

Support any business size, from single locations to multi-unit enterprises, with a platform that grows with you.

## Your complete package for F&B management

Unify your ecosystem to power faster service, smarter operations, and seamless guest journeys from table booking to loyalty rewards, all with precision and control.
